## Progress on Bond Program

The FLM Expansion Project is well underway. The CES driveway and expansion project is 100% complete. The Center High School HVAC improvements and modifications are near completion. The work in front of CHS is a parking lot that will serve three purposes; student parking; CES overflow parking; and parking for the soon to be revealed multi-purpose event center. As such, the multi-purpose event center will be fully developed and out for proposals very soon. We encourage you to drive by and see the improvements as they take shape.
